SUMMARY

I am an experienced Android Developer specializing in Java with a proven history of delivering high-quality mobile applications. My collaborative teamwork and innovation enable me to stay on top of the latest trends in mobile development. I am dedicated to creating seamless user experiences through optimized app performance and effective client communication.

EXPERIENCE

07/2023 - Present

- Android Developer
Silver Touch Technologies Ltd.
 - Collaborate adeptly with clients to deploy Android applications, ensuring tailored solutions and seamless integration.
 - Proficient in MVVM architecture implementation for Android app development, resulting in maintainable and scalable applications with clear separation of concerns.
 - Establish robust communication with backend teams for seamless data exchange, while optimizing UI design for responsive user experiences across devices

01/2023 - 06/2023

- Android Developer Intern
Concept Infoway Pvt Ltd.
 - Collaborated with the development team to design and implement user friendly Android applications, improving functionality and performance.
 - Conducted testing, debugging, and integration of backend services and APIs to ensure smooth application functioning.
 - Participated in team meetings and brainstorming sessions to enhance application features and user experience.

EDUCATION

2021 - 2023

Anand Institute of Management and Information Science

2018 - 2021

Anand Commerce Collage

- Master of Computer Application
Gujrat technological University
- Bachelor of Computer Application
Sardar Patel University

KEY ACHIEVEMENTS

-  **Client Site Project**
Led team to deliver 3 mobile apps.
-  **Dynamic Form Creation**
Real-time data synchronization, flexible form structure updates, and Firebase-driven dynamic form fields.
-  **Performance Optimization**
Optimized app performance by 30%.
-  **API Integration Expert**
Implemented 15+ API integrations.

SKILLS

Android	Android Studio	APIs	Debugging	MVVM	Gitlab	Java	jetpack	Kotlin	livedata
Mobile Development	Firebase	PHP	RESTful API	Retrofit	svn				

PROJECTS
